

Africa SME Summit 2026

Sponsorship Proposal

You don't want to **miss out.**

Thursday 15 October 2026

07:30 – 17:30

Chandaria Centre for Performing Arts, University of Nairobi

The money exists. The problem is the meeting.

Kenya has 7.4 million MSMEs carrying 85% of the national workforce. The capital they need, the buyers they need and the research they need already exist inside this country. What has never existed is the room where those groups meet on the same day, on purpose, with somebody making the introductions.

Every corporate that sells to, lends to, supplies or recruits from Kenyan enterprise faces the same structural problem: the audience is enormous, fragmented and expensive to reach one business at a time. This summit collapses that cost into a single day.

We do not sell you a headcount. We sell you the composition of the room — because in this market, a handful of named decision-makers is worth more than a hall full of anonymous seats.

● Enterprise ● Markets

7.4M

MSMEs in Kenya

85%

of the national workforce

1.2M

MSMEs in Nairobi County

40%

of national GDP from Nairobi MSMEs

THE RETURN

Six things a partnership converts into.

Sophisticated partners discount brand visibility heavily, and they are right to. Logo placement is table stakes. What a partnership here actually commands is listed below.

01 / DEAL FLOW

Qualified deal flow

Two protected hours from 14:30 given to nothing but deal-making, pitching and exhibition. Your team works a floor of screened enterprises instead of chasing them one at a time for a quarter.

02 / AUTHORITY

Category ownership

Chairing a track positions your brand as the institution that convenes the conversation in its category — a position a competitor cannot buy back once it is taken.

03 / ACCESS

Policy proximity

Principal Secretaries, a County Executive and the leadership of national institutions, in one venue, for one day. Access at this level is not normally purchasable at any price.

04 / PIPELINE

Research and talent

Thirteen universities seeking live commercial problems. Partners leave with named research teams and graduate pipelines, not an MOU that produces nothing.

05 / EVIDENCE

Documented attribution

Every partner is named in the published post-summit report. Your board sees what the day produced, in writing, with your name against it.

06 / REACH

Screened audience reach

Profile across I Choose Life – Africa platforms reaching 10,000+, built over two decades of enterprise and youth programming — not a rented list.

What scales, and where.

Four levels. The difference between them is not how large your logo is — it is how much of the agenda you own. Each tier inherits everything to its left.

	TIER 01 · BRONZE Associate Partner KES 125,000	TIER 02 · SILVER Platform Partner KES 250,000	TIER 03 · GOLD Track Partner KES 500,000	TIER 04 · PLATINUM Convening Partner KES 1,000,000
WHAT IT COMMANDS	Your brand in the delegate's hands and on the permanent record of the day.	Stop attending the conversation. Speak in it — with a floor position to convert what you say.	Own an entire strand of the national conversation, and chair the room where it happens.	Your name beside the summit's. Sole tenancy of the most senior platform in Kenyan enterprise this year.

Two moments the whole room stops for.

Neither is included in the tiers above. Both are available to a single partner, by application, and both are negotiated directly with the convener.

16:00 • THE PEAK OF THE DAY

The Africa SME Award 2026

The winners are announced from the stage in front of the entire summit, at the emotional high point of the programme. Naming rights place a partner's brand permanently against Kenyan enterprise achievement — the most photographed, most reported moment of the day.

10:30 • THE PLATFORM LAUNCH

The Jiinue Business Accelerator

Kenya's new enterprise assessment and investor-matching platform launches from this stage, introduced by the Principal Secretary for Science, Research & Innovation. Association with the launch positions a partner at the origin of national infrastructure, not merely at an event.

THE DECISION

Six tracks. One summit. One name beside it.

Track Partnership is capped at six, because there are six tracks.
Convening Partnership is capped at one, because there is one summit.
These are not manufactured scarcities — they are the arithmetic of the programme, and once a category is taken it is taken for the year.

Materials go to print shortly. A partner confirmed by **Wednesday 1 October** appears in the printed programme, on the delegate badges and across the remaining campaign. A partner confirmed after that appears on the day, and only on the day.

STEP ONE

Reply naming the tier and, for Track Partnership, your preferred track.

STEP TWO

We issue the partnership agreement and invoice within 48 hours.

STEP THREE

Your brand enters the campaign immediately — not on 15 October.
