Experience Expert

Different perspectives. One shared vision.

Our Services

Practical expertise, delivered end to end.

01

Software Engineering & Innovation

Design, build, and scale proprietary SaaS platforms and custom digital solutions for clients across Kenya and the region.

02

System Integration (Including Networking & IoT)

We position ourself as a leading system integrator, connecting and modernizing technology ecosystems for enterprises and public sector organizations.

03

Enterprise IT Support (Managed Services)

We provide comprehensive outsourced IT and managed services, enabling organizations to focus on their core business while we manage their technology infrastructure and operations.

Flagship Products

Three focused platforms.
Different solutions for different
industries and sectors.

BUILT FOR
REAL-WORLD IMPACT

01

EasyQnA

Enables event organizers to capture real-time audience questions, conduct live polls, and collect post-event feedback through a simple QR code scan — no app download required.

02

Malipay

A comprehensive property management solution designed to simplify rent collection, tenant management, lease tracking, maintenance requests & financial reporting for landlords, agents & real estate companies.

https://malipay.biztimamtechnologies.com/

03

GamiKonnnect

A grassroots gaming and esports platform built to connect gamers, gaming arenas, tournament organizers, esports teams, publishers, sponsors, and gaming communities in one ecosystem.

website: <https://gamikonnnect.com/>

Business Challenges

We are committed to delivering high-impact solutions, and we continue to navigate key challenges with focus, agility, and a client-first mindset.

01

Product Pricing Model

We have adjusted our pricing model multiple times to make our products more affordable for clients while maintaining sustainable value, but finding the right balance remains an ongoing challenge.

02

Market Competition and Adoption

Clients often compare our solutions with competing offerings, even though we provide significantly more value. Building awareness, trust, and adoption in a competitive market remains an ongoing challenge.

Contact Us

Let's build impactful digital solutions together.

Partner with Biztimam Technologies for software engineering & innovation, system integrations and enterprise IT support.
