Location	Nairobi, Kenya
Ownership	Woman-owned enterprise
Sector	Livestock value addition and natural wellness
Core Products	Cooking tallow, body butter, lip balm, beard oil and related products
Growth Focus	B2B partnerships, market access, production and regional expansion

NATURAL WELLNESS CRAFTED WITH PURPOSE

Smartcom Traders is a Kenyan woman-owned enterprise founded in 2012. The company develops value-added products from responsibly sourced animal fats, with a growing portfolio across cooking, skincare, hair care and personal grooming.

WHY SMARTCOM STANDS OUT

- Local value addition
- Livestock value-chain linkage
- Product diversification
- Woman-led enterprise
- B2B growth potential
- Natural wellness positioning

EXECUTIVE PROFILE

Smartcom Traders transforms underutilized animal-derived resources into packaged consumer products. Its flagship Smartcom Signature Tallow established the company’s commercial entry into value-added tallow. The portfolio has expanded into tallow-based body butter, lip balm, beard oil and related personal-care products. The business combines local sourcing, processing, packaging and market development to create higher-value applications within the livestock value chain.

Smartcom is now focused on strengthening production capacity, improving market visibility, developing B2B channels, and preparing for suitable regional opportunities. The company is seeking investment and partnerships aligned with women-led enterprise growth, local manufacturing, livestock value addition and responsible resource use.

OUR STORY & VALUE CREATION

Smartcom has evolved from an established trading enterprise into a value-added manufacturing and consumer-products business. The company focuses on converting suitable animal fats into useful, packaged products with defined consumer and commercial applications.

2012	Business established Smartcom Traders was founded in Nairobi, Kenya.
2024	Tallow production Production commenced and the company began developing value-added applications for animal fats.
2025	Market entry Smartcom Signature Tallow entered the market and commercial sales began.
2026	Market development B2B engagement, expos, exhibitions, partnerships and distribution development are being pursued.

OUR PRODUCT PORTFOLIO

			
Smartcom Signature Tallow Value-added cooking tallow and core product platform.	Tallow Body Butter Tallow-based body-care product positioned within natural wellness.	Beard Oil & Lip Balm Men's grooming and personal-care products within the growing portfolio.	Pure Camel Tallow A differentiated tallow product supporting portfolio diversification.

HOW SMARTCOM CREATES VALUE

VALUE PROPOSITION

Smartcom seeks to: • Convert suitable underutilized animal-derived materials into marketable products. • Increase the economic value of livestock value-chain inputs. • Create opportunities in sourcing, processing, packaging and distribution. • Develop a platform for additional tallow-based personal-care products. • Strengthen locally manufactured Kenyan consumer brands.	Strategic positioning • Livestock value addition • Circular resource utilization • Natural wellness and personal care • Women-led enterprise development • Local manufacturing and market access

INVESTMENT CASE & GROWTH PRIORITIES

Smartcom's next phase requires coordinated financing, production development and market expansion. The company's immediate priorities are structured around working capital, product development, visibility, quality systems and market access.

01 WORKING CAPITAL

Limited working capital restricts raw-material procurement, inventory maintenance, packaging improvements, production growth and fulfillment of larger orders. Appropriate working capital would strengthen procurement, production planning, stock availability and order fulfillment.

02 MARKETING & MARKET AWARENESS

Smartcom needs sustained marketing, customer education, product demonstrations, digital visibility and structured B2B outreach. Investment in branded materials, retail relationships, exhibitions and digital acquisition would support customer growth and sales conversion.

INVESTMENT & PARTNERSHIP PRIORITIES

1	Working capital Raw materials, production inputs, packaging and inventory.
2	Production development Equipment, processing capacity and standardized production systems.
3	Marketing and brand awareness Digital marketing, product education, demonstrations and promotional materials.
4	Market access B2B partnerships, retailer engagement, expos, exhibitions and distribution networks.
5	Quality and compliance Testing, traceability, product documentation and applicable regulatory requirements.
6	Regional expansion Market research and partnerships for suitable East African markets.

GROWTH ROADMAP 2026–2028

Scale production Improve processing capacity, production planning and stock availability.	Strengthen market access Build B2B channels, retail relationships and structured distribution.
Expand product portfolio Develop selected tallow-based skincare, hair-care and grooming products.	Build quality systems Strengthen testing, traceability, product documentation and compliance.
Develop digital sales Increase online visibility, customer education and direct sales channels.	Explore regional markets Assess suitable East African markets and establish distribution partnerships.

LONG-TERM ASPIRATION

Smartcom Traders aims to become a recognized Kenyan brand in livestock value addition, cooking tallow and natural-inspired personal care. The company seeks to demonstrate the commercial potential of locally driven innovation by combining responsible resource use, product quality, market access and sustainable business growth.
